Vol. 1.

No. 18

March 9, 1979

Today's issue of "Inside..." is brief in order to mail you a copy of Video Notes, produced by Cordell Hatch of Penn. State Univ., along with Keith Stevens.

Cordell and Keith worked up the report about video tape recording through funding from the Science and Education Administration and thought it might be useful to all readers of "Inside..." Cordell says though that hereafter, he'll automatically send copies to all land-grant information heads and radio-TV specialists and to all Washington-based agency information directors.

Reserve
Others interested in continual receipt of Video Notes should write a request to Cordell at the address on the back page of the pamphlet.
